

M. R. AHAMED

Computer Science Undergraduate | Full-Stack Developer

Kandy, Sri Lanka | +94 76 353 9501 | ahamedrock369@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Computer Science undergraduate and aspiring full-stack developer with experience creating web, mobile and desktop applications that integrate user interfaces, server-side functionality, databases and RESTful APIs. Strong foundation in Java, Python, JavaScript, React and Node.js, with knowledge of authentication and application security testing. Entrepreneurial work has strengthened commercial awareness, client communication, requirements analysis and practical problem-solving. Seeking an IT internship to apply these strengths to real-world challenges in a collaborative environment.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL, C++

Frontend Development: React.js, HTML5, CSS3, Bootstrap, Three.js, Responsive Web Design

Backend & Frameworks: Node.js, Express.js, PHP, Spring Boot

APIs & Integration: REST APIs, JSON, WebSockets

Mobile Development: Android Studio, Android SDK, XML

Databases: MySQL, MongoDB, SQLite

Security & Authentication: JWT, RBAC, Vulnerability Assessment

Tools & Technologies: Git, GitHub, Postman, Katalon Studio, Tkinter, Stripe

Core Concepts: OOP, DSA, MVC, Database Design, Software Testing, Agile & Scrum

PROJECTS

High Street Car Sale Private Limited | GitHub ↗

Jul 2026 – Present

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MySQL, JWT, Three.js, Stripe, WebSockets

- Engineer a responsive full-stack vehicle marketplace featuring advanced vehicle search and filtering, detailed image galleries and dedicated user dashboards for buyers and sellers.
- Develop backend services using Node.js and Express.js with MySQL database integration, JWT-based authentication and secure access controls.
- Build administrative and transaction-management functionality for vehicle listings, content moderation, payment workflows and real-time user communication.

Fidenz Weather App | GitHub ↗

Aug 2026 – Nov 2026

Technologies: React.js, JavaScript, Node.js, Express.js, Vite, Auth0, REST APIs, HTML, CSS

- Developed a responsive full-stack weather intelligence application using React.js with a Node.js and Express.js backend for real-time weather information, forecasts, and location-based insights.
- Integrated external weather services and a custom Comfort Index engine to process environmental data and present meaningful weather insights through an interactive dashboard.
- Implemented Auth0-based authentication and authorization, backend caching, environment-based configuration, modular application architecture, and unit testing for core functionality.

Health Forge Fitness | GitHub ↗

Jul 2026 – Present

Technologies: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, XAMPP, Stripe

- Develop the complete fitness website using HTML, CSS, JavaScript and PHP, including its responsive frontend interface, backend functionality and database-connected features.
- Design and implement the administrative dashboard and Stripe payment gateway integration while managing essential user, content and transaction-related functions.
- Participated in an authorised group security assessment within a controlled academic environment to evaluate application and firewall security and identify potential vulnerabilities.

Student Expense Tracker | GitHub ↗

Feb 2026 – Jun 2026

Technologies: Android Studio, Java, XML, SQLite, RESTful API, JSON, MPAndroidChart

- Designed and developed the Android application structure, screen layouts and user interface for recording expenses, managing monthly budgets and displaying overspending alerts.
- Implemented expense-management functionality with SQLite database integration for securely storing, retrieving and managing financial records.
- Integrated an external currency-conversion API and MPAndroidChart pie and bar charts to visualise category-based spending patterns and support financial analysis.

Technologies: Python, Tkinter, SQLite, CSV, Role-Based Access Control (RBAC)

- Developed an offline restaurant Point of Sale system using Python, Tkinter, and SQLite to manage orders, kitchen workflows, menus, inventory, customers, and daily operations.
- Implemented secure staff authentication with PBKDF2 password hashing and role-based access control, alongside payment processing, receipt generation, and customer loyalty functionality.
- Created sales reporting, CSV data export, stock monitoring, low-stock alerts, order-status tracking, and local database backup functionality to support operational management.

EDUCATION

SLIIT City Uni (SCU)

2025 – Present

BSc (Hons) Computer Science

Colombo, Sri Lanka

- *Academic Pathway:* Pursuing a three-year course comprising a two-year Higher Diploma in Information Technology (HDIT) at SLIIT Kandy UNI, followed by the final year of the BSc (Hons) Computer Science programme at SLIIT City Uni. The degree is awarded by the University of Bedfordshire, United Kingdom.
- *Relevant Coursework:* Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Web Technologies, Software Engineering, Computer Networks, Computer Security, Probability & Statistics

ESOFT Metro Campus

Jan 2019 – Aug 2019

Diploma in Information Technology

Kandy, Sri Lanka

- *Relevant Coursework:* Artificial Intelligence, Python Programming, Software Engineering, Web Design, Database Concepts, Networking & Automation, Computer Hardware & Systems

ESOFT Metro Campus

Jul 2019 – Aug 2019

Diploma in English

Kandy, Sri Lanka

Zahira College, Gampola

2021

GCE Advanced Level (A/L) – Commerce Stream, English Medium

Zahira College, Gampola

2018

GCE Ordinary Level (O/L), English Medium

ENTREPRENEURIAL EXPERIENCE

Business Owner | Technology Retail & Business Operations

2022 – Present

Mobile Device Retail & Vehicle Sales — Kandy, Sri Lanka

- Provide technical consultation on mobile devices by evaluating hardware, operating systems, software features, specifications, compatibility and performance to translate customer requirements into informed product recommendations.
- Analyse product, pricing, inventory and supplier data while applying requirements analysis and technical problem-solving to support purchasing decisions and efficient business operations.
- Manage digital marketing, customer enquiries, negotiations, sales coordination and after-sales support across mobile device retail and vehicle sales, serving more than 200 customers through direct and social media channels.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Batch Representative – SLIIT Kandy UNI (2024–2025)

Member, Student Interactive Society (SIS) – SLIIT Kandy UNI (2024–2025)

Member, AIESEC – SLIIT Kandy UNI (2024–2025)

Member – School Media Unit, Interact Club & Rotaract Club, Zahira College (2016–2020)

Cadet Sergeant – Zahira College, Gampola (2017–2020)

School Sports Representative – Cricket, Football, Badminton & Rugby, Zahira College (2015–2020)

LANGUAGES

English: Professional Working Proficiency

Sinhala: Professional Working Proficiency

Tamil: Professional Working Proficiency
